360 Easy-to-Swallow Capsules

Andrew Lessman's ALOE VERA 200 provides 200 mg of our exceptional 200:1 ultra-concentrate of pure **Aloe Vera** derived from the prized inner fillet of the *Aloe Vera Barbadosensis* plant. Our **Aloe Vera** is grown in exceptionally fertile soil and never exposed to frost while growing or heat during production. Our **Aloe's** benefits are so highly concentrated that it requires 12 pounds of pure **Aloe Vera** to create just one ounce of our unique powder. Our **Aloe** also meets the most rigorous standards of the International Aloe Science Council to ensure it is of the highest quality and purity. Used externally, the **Aloe Vera** plant has been relied upon for centuries to support the body's wound-healing capabilities, as well as to soothe skin irritation, such as sunburn. Used internally, **Aloe** is most respected for the relief it provides to the stomach and digestive system where it supports the health and integrity of the gastrointestinal lining. Its soothing benefits have also been noted for our joints and immune system. **Aloe's** myriad of benefits result from its rich array of healing substances and our pure **Aloe Vera 200** is specifically designed to deliver high levels of these beneficial compounds as economically and conveniently as possible.

DIGEST ASSURE™

COMPLETE DIGESTION FORMULA
ENZYMES FROM VEGETARIAN SOURCES

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's DIGEST ASSURE is a mild, natural food supplement designed to support and enhance our body's normal digestive processes. **Digest Assure** contains a comprehensive, balanced blend of enzymes to help our body digest and benefit from the diverse and very complex foods we eat. Unlike most digestive enzyme products, which are derived from pig, ox and beef bile, **Digest Assure's** enzyme blend is entirely produced from natural, vegetarian sources. Its active ingredients are balanced to help our bodies break down the macronutrients (proteins, carbohydrates and fats) we consume into smaller molecules that can be absorbed to nourish and benefit our body. Macronutrients make up the greatest portion of our diet, and when broken down by our natural *Protease*, *Amylase* and *Lipase* enzymes, they can be used to provide our body with the structural components it requires, as well as fuel to produce energy. In addition to these three important enzymes, **Digest Assure** also contains *Cellulase* to aid in fiber digestion, *Lactase* to break down dairy products, as well as natural *Papain* and *Bromelain* for additional support in converting proteins into absorbable amino acids. Many factors, including stress and aging, can make the complete digestion of the food we eat very difficult or impossible, which is why the mild, yet powerful, natural enzymes in **Digest Assure** are so important to the benefits of a healthy diet.

FRIENDLY FLORA

PROBIOTIC COMPLEX • 5 BILLION CFU
FIVE STRAINS OF BENEFICIAL MICROFLORA

**PROCAPS
LABORATORIES**

**ALL-SOLAR
MANUFACTURING**

180 Easy-to-Swallow Capsules

Andrew Lessman's FRIENDLY FLORA is our unique, comprehensive blend of five strains of Probiotic (*Friendly Flora*) species, delivering a remarkable 5 Billion Colony Forming Units (CFU) per capsule. It is intended to enhance and promote the population of beneficial *Friendly Flora* (healthy microorganisms) throughout our body, particularly to support our digestive, immune, urinary and genital systems. Probiotic means "for life" and Probiotics have been naturally and beneficially consumed for thousands of years. It is well established that the *Friendly Flora* that populate our GI (gastrointestinal) tract play a vital role in promoting healthy digestive function; as well as enhancing our ability to absorb key nutrients and maintaining healthy immune status. **Friendly Flora** provides five carefully selected varieties of *microflora*, each possessing its own unique properties, since a diverse and balanced population of *Friendly Flora* is required for optimum benefits. The delicate balance of microflora in our digestive system is easily upset by daily stress, digestive issues and normal aging. This fragile balance is further disrupted by medications that affect the digestive system, including antacids or even worse, antibiotics, which can wipe out our *Friendly Flora*. The most common source of microflora in the diet is yogurt, but it generally contains low and unreliable levels of just a single strain, and yogurt can present digestive issues, along with unwanted sugar and calories. Our **Friendly Flora** provides a remarkable 5 Billion CFU (Colony Forming Units) per capsule of five distinct varieties of *Friendly Flora* specially selected for their unique stability and bioavailability. The result is a uniquely comprehensive formula that retains its potency to ensure the benefits you seek for all the body systems that depend on *Friendly Flora*.
