Certified Organic
Jasmine Infused
Green Tea

**Instructions**

For a refreshing tea, place one sachet of our Organic Jasmine Infused Green Tea in a cup or teapot of pure water at approximately 185°F (85°C). This is best achieved by allowing boiling water a moment to cool before introducing the tea sachet. Steep for approximately 3 to 5 minutes and then allow to cool and enjoy. Of course, feel free to vary the amount of water used or modify the brewing time to adjust the strength of the tea. Unlike typical green tea, prolonged brewing will not cause bitterness due to the unique quality of our tea. You can also add ice or refrigerate to make a healthy, delicious and refreshing tea.

Exclusively From Fujian, China

We use only Single Region Premium Sencha Green Tea from Organic-Certified gardens in the Fujian Province of China. Fujian Green Tea is the finest Green Tea in China and it is known for its rich, yet mild flavor, which makes it a perfect choice for Americans. Sencha Green Tea is traditionally produced in Japan and is well known for its mild flavor. “Sencha” refers to the absence of grinding the tea leaves, which retains its magnificent flavor and aroma. The capital of Fujian is Fuzhou – a city renowned for its Jasmine, making it the home to China’s and our highest quality Jasmine Green Tea.

Certified Organic
Jasmine Infused Green Tea

**Ingredients**

Pure Premium Organic Green Tea from the Fujian province dried traditionally in the presence of the rich fragrance of autumn-harvested Guangxi Jasmine Blossoms.

Back in 1979, I began making vitamins for my own use when I could find no products that met my high standards for quality, purity and efficacy. These vitamins were never intended to be sold; however, some 30 years later, the same exceptional vitamins I make for my own personal use are the exact same vitamins I share with you through ProCaps Laboratories.

Today, I have created a very small family of products called “Andrew’s Own” for when, just as with vitamins 30-plus years ago, I make a product for my own use that is worthy of sharing with you. I am excited to introduce another unique member to the Andrew’s Own family. Enjoy!

Enjoy!

Certified Organic Pacific Northwest Peppermint “Tea”

Instructions

For a refreshing herbal “tea,” place one sachet of our Organic Peppermint “Tea” in a cup or teapot of pure water at approximately 185°F (85°C). This is best achieved by allowing boiling water a moment to cool before introducing the “tea” sachet. Steep for approximately 3 to 5 minutes and then allow to cool and enjoy. Of course, feel free to vary the amount of water used or modify the brewing time to adjust the strength of the “tea.” You can also add ice or refrigerate to make a healthy, delicious and refreshing iced mint tea.

“Tea,” but not really Tea?

You will notice that we always place quotation marks around the word “tea” when referring to our Peppermint “tea.” That is because technically, Peppermint “tea” is not a true tea. It is actually an infusion and although most of us refer to it as an “herbal tea,” it is really not tea at all. Technically for something to be called “tea,” it must come from the Camellia sinensis plant. That plant is responsible for all the green, black, oolong and other varieties of tea. Beverages that are made by infusing other plants are more properly referred to as Herbal Infusions or Tisanes, but no matter what you call it, our Peppermint “Tea” is a uniquely refreshing treat.

Peppermint from the Pacific Northwest

Our Peppermint is cultivated in the moist, nutrient-rich soil of America’s Pacific Northwest where botanical experts claim the world’s finest organic Peppermint is found. We exclusively use Premium Full-Leaf Certified Organic Peppermint, which assures you the freshest flavor and complete peace of mind. Our Peppermint is certified free of pesticides, herbicides, fungicides and other added chemicals, flavors and sweeteners. It is unprocessed, so you enjoy all the pure, natural freshness of our exceptional organic Peppermint in each natural biodegradable “tea” sachet.

Ingredients

Pure Premium Organic Peppermint from America’s Pacific Northwest.

Nature’s Freshest Flavor & Fragrance

There are more than two dozen species of plants in the mint family. Peppermint, (Mentha piperita), is a hybrid combination of spearmint and water mint and is, without question, the most popular of all varieties of mint. Traditionally, Peppermint has been used not just for its uniquely fresh aroma and flavor, but also for its soothing properties, particularly for the digestive system. These calming properties have been recognized for thousands of years by diverse cultures around the world. Today, we find Peppermint in everything from breath mints and tooth paste to chewing gum, mouthwash and air fresheners. Peppermint is truly one of Mother Nature’s great gifts and our naturally caffeine-free Organic Peppermint makes it easy to see why it has been revered for centuries.

30 INDIVIDUALLY SEALED “TEA” SACHETS • NET WT. 2.1 OZ. (60g)
