

SUGGESTED USE Consume one or more capsules daily or as recommended by your physician. As with any dietary supplement, this product is most effective as part of a healthy diet and active lifestyle, along with a daily multi-vitamin-mineral formula. **For questions about the use of this product call 800.808.7311.**

GREEN TEA EGCG 200™

200 MG EGCG

EPIGALLOCATECHIN GALLATE

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

Andrew Lessman's GREEN TEA EGCG 200 provides highly concentrated levels of **EGCG** (Epigallocatechin Gallate) – one of the most powerful, naturally occurring anti-oxidants, which has been scientifically linked to the traditional benefits of Green Tea. **Green Tea EGCG 200** is more than a Green Tea supplement since it provides a specific amount of **EGCG** (200 mg) not present in ordinary Green Tea supplements. For centuries, Green and White Tea have been considered a vital component of the healthy Asian diet because they are the most frequently consumed beverages in Asia, and now their wide range of health benefits have been scientifically associated with their levels of the powerful anti-oxidant – **EGCG**. **EGCG** continues to be the subject of some of the most exciting anti-aging research relating to the heart, brain and other vital organs. These findings are not surprising, since **EGCG** has been shown to possess higher anti-oxidant capacity than both Vitamin E and Vitamin C. **EGCG** is more than a very powerful anti-oxidant, since it also supports and enhances the activity of our body's own internal anti-oxidants, including glutathione peroxidase, catalase and quinine reductase enzymes, which are vital to our health, particularly the cleansing and detoxification functions of our liver. **EGCG** also supports a healthy immune system, while performing its well known work protecting our brain, heart and circulatory system from oxidative damage. It would be hard to find a more concentrated, traditionally consumed and well-researched natural ingredient than **EGCG** to support our body's most vital systems, including our cardiovascular, nervous, immune and excretory systems, with special focus on the heart, brain and liver. Each easy-to-swallow capsule of **Green Tea EGCG 200** delivers a high concentration (200 mg) of one of Mother Nature's most powerfully protective molecules.
