

SUGGESTED USE Consume one or more capsules daily or as recommended by a health care professional. As with any dietary supplement, this product is most effective as part of a healthy diet and active lifestyle, along with a daily multi-vitamin-mineral formula. **For answers to questions about the use of this product, call 800.808.7311.**

GREEN TEA EGCG & CRANBERRY™

STANDARDIZED FOR POLYPHENOLS
EGCG & FRUIT ACIDS

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

GREEN TEA EGCG AND CRANBERRY combines the exciting health benefits from the powerful anti-oxidants contained in two of the world's most popular healthy beverages. Best of all, you can enjoy the benefits of Green Tea without caffeine and Cranberry without added sugar. For centuries, Green Tea has been the standard beverage in the healthy Asian diet and its wide range of health benefits have been long recognized as resulting from a particularly powerful anti-oxidant polyphenol called **Epigallocatechin Gallate** or **EGCG** for short. We gently extract our Green Tea using only water and we thereby avoid the harsh chemicals and extraction processes that damage and contaminate other Green Tea extracts. Our pure Green Tea extract preserves the highest levels of beneficial polyphenols and catechins, particularly **EGCG**, which has been proven to be by far the most important of Green Tea's beneficial ingredients and one of the most powerful naturally occurring anti-oxidants. In fact, our ultra-high potency Green Tea extract is standardized to provide not less than 98% anti-oxidant polyphenols of which more than 50% are **EGCG** with each capsule delivering not less than 100 mg of **EGCG**. The health benefits of Cranberries have also been used traditionally for centuries and modern studies have continuously validated Cranberry's unique ability to offer powerful support for the health of the urinary tract, kidneys and bladder. Our special Cranberry extract is standardized to deliver levels of not less than 35% beneficial fruit acids. In addition to the benefits to the urinary tract, Cranberries also contain exceptionally high levels of anthocyanidins – powerful anti-oxidants that protect against oxidative damage. Unfortunately, the bitter flavor of Cranberries limits their consumption to beverages saturated with sugar, which undermines the health benefits of this remarkable berry. Both Green Tea and Cranberry are extremely healthy to consume; but until they become a staple in the Western diet, you can enjoy the benefits through our healthy **Green Tea EGCG and Cranberry** formula.
