# NIGHT TIME™

MELATONIN · VALERIAN ROOT  
HOPS · PASSIONFLOWER · CHAMOMILE

DIETARY SUPPLEMENT

360 Easy-to-Swallow Capsules

**Andrew Lessman's NIGHT TIME** is a gentle balanced blend of natural ingredients designed to help promote a restful night's sleep without a morning-after "hangover". The pace and stress of modern life, along with the normal aging process seems to conspire to prevent a restful night's sleep. As a result, we often find ourselves fatigued throughout the day, since sleep is our body's means of recovering from the demands of daily life. **Night Time** is not intended to be a "sleeping pill" to "knock you out", but is designed to provide the natural tools to help you fall asleep naturally thereby achieving a restful night's sleep. **Night Time** begins with our body's primary sleep scheduling substance - **Melatonin** at levels intended to gently facilitate sleep without dependency or side effects. We then add 5-hydroxytryptophan (**5-HTP**) from Griffonia Simplicifolia Seed because of its role in serotonin synthesis, which helps to enhance sleep quality while also helping to support positive mood. We then include four of Mother Nature's most powerful soothing, relaxing plants: **Valerian Root, Hops, Passionflower** and **Chamomile**. All of these plants have been used traditionally for centuries to encourage relaxation and a restful night's sleep. Each of these botanicals is included as an exceptional quality standardized extract to ensure the delivery of their most important sleep and relaxation supporting components. A good night's sleep is essential to a happy, healthy life and our **Night Time** provides the comprehensive support necessary to safely and naturally help you achieve the restful night's sleep required to wake up energized and refreshed the next day.
