360 Easy-to-Swallow Capsules

**Andrew Lessman's RESVERATROL 100 WITH POMEGRANATE 40:40** offers a special blend of two of the most heavily researched and popular wellness ingredients. It combines high levels of natural Resveratrol with a unique 40:40 Extract of Pomegranate. Resveratrol is currently the subject of some of the most exciting anti-aging research and although we've offered it for over a decade, it is only recently available at this exceptional potency level in a purified natural form. Resveratrol is behind the benefits of Red Wine, the Mediterranean diet and the so-called French Paradox, where the French possess far better heart health than expected from their diet and lifestyle. Resveratrol is among nature's most powerful anti-oxidants protecting the delicate tissues of the heart, brain, breast and prostate. On a cellular level, Resveratrol's impact on telomeres places it at the leading edge of anti-aging research. Each capsule of this unique formula provides more Resveratrol than well over 100 glasses of Red Wine! Pomegranate has been a traditional folk remedy for centuries and often referred to as the "sacred fruit." Today, scientists have confirmed Pomegranate's unique balance of powerful protective compounds; but sadly, most Pomegranate products are not standardized to deliver any benefits at all. On the other hand, our unique Pomegranate 40:40 is standardized to deliver its most important compounds (40% Punicalagins/40% Ellagic Acid) ensuring all the benefits you seek from Pomegranate without any sugar, calories or additives. Our new Resveratrol 100 with Pomegranate 40:40 naturally combines the powerful goodness of Red Wine with the benefits of Pomegranate's key molecules without having to consume a single drop of alcohol or any of the sugar, calories or other additives typical of Pomegranate Juice.
