Andrew Lessman's CINNAMON 350 offers a unique concentrated blend of standardized extracts of **Cinnamon Bark** delivering the powerful protective compounds naturally present in this popular and respected spice. For centuries, **Cinnamon** has been sought after, not only for its distinctive flavor, but also for its health-promoting properties. In fact, **Cinnamon** remains one of the oldest herbal remedies used in traditional Chinese medicine. Recently, **Cinnamon** has gained popularity for its ability to help support healthy blood sugar balance and glucose metabolism. Research attributes these benefits to the powerful activity of the Type-A polyphenols present in **Cinnamon Bark Extract**. Our **Cinnamon 350** delivers a comprehensive standardized blend of Type-A polymers from three unique **Cinnamon** extracts. As with all plant-based supplements, there is more to making a quality **Cinnamon** product than placing some ordinary, powdered **Cinnamon** into a pill. To receive the benefits of **Cinnamon**, one must always seek standardized extracts of **Cinnamon Bark** delivering beneficial levels of their key protective compounds. Our unique, concentrated blend of three distinct standardized extracts of **Cinnamon Bark** assures the most comprehensive and broadest spectrum protection from this remarkable natural ingredient.
