DIETARY SUPPLEMEN

240 Easy-to-Swallow Capsules

Andrew Lessman's COMPLETE TOCOTRIENOLS is the most comprehensive Vitamin E formula possible delivering the full complement of all eight naturally occurring forms of Vitamin E - both the well-known Tocopherols and the hard-to-find Tocotrienols. Our Complete Tocotrienols is a naturally balanced formula containing high levels of Vitamin E as Alpha, Beta, Gamma and Delta Tocotrienol; as well as Alpha, Beta, Gamma and Delta Tocopherol. Our Complete Tocotrienols is uniquely balanced to focus on Gamma Tocotrienol and Gamma Tocopherol - by far the most active and protective forms of Vitamin E. Unfortunately, most Tocopherol-based Vitamin E supplements ignore Mother Nature's blueprint by delivering Alpha Tocopherol only (often synthetic) and absolutely no Gamma Tocopherol or Tocotrienol at all. Even more advanced Tocotrienol supplements reduce their efficacy and benefits with high levels of Alpha Tocopherol, Sadly, most America unknowingly use ineffective Vitamin E supplements t ignore the research and bear no resemblance to Vitamin E found in nature. Our Complete Tocotrien is both perfectly comprehensive and ideally balance focusing on Mother Nature's most beneficial a protective forms of Vitamin E that are sadly, abs from typical Vitamin E supplements. It is difficult achieve an adequate intake of Vitamin E from foods.

CONTAINS NO ADDITIVES OR COMMON ALLERGENS OF ANY KIND.
