Andrew Lessman's RESVERATROL-EGCG-POMEGRANATE formula provides a perfectly balanced blend of three of the most well-researched, naturally protective molecules. Red Wine (**Resveratrol**) and Green Tea (**EGCG**) have, for centuries, been recognized as central to the healthy Mediterranean and Asian diets; and today, they are the subject of the most exciting anti-aging and wellness research. We have offered **Resveratrol** for many years, but only recently were we able to deliver the levels required by the research. Green Tea's wide-ranging health benefits have been established for centuries, but again, only recently have scientists identified **EGCG** (Epigallocatechin Gallate) as the molecule responsible. Our unique Green Tea extract concentrates the goodness of Green Tea to provide optimum levels of **EGCG**. **Pomegranate** has been a traditional remedy for centuries and is often referred to as the "sacred fruit." Scientists have identified the molecules behind its benefits, yet Pomegranate juice or supplements rarely declare the levels of these vital compounds. We call our **Pomegranate 40:40**, because we declare the levels present of Pomegranate's most important compounds: **40%** Punicalagins and **40%** Ellagic Acid. Each capsule of our new **Resveratrol-EGCG-Pomegranate** formula enables you to enjoy all these exceptionally powerful, natural molecules without consuming any alcohol, caffeine, sugar or calories.
