SUGGESTED USE Consume one or more capsules daily with food or as directed by a health care professional. According to clinical studies, optimum results are achieved by consuming the contents of one packet (four capsules) daily with meals. This product is most effective as part of a healthy diet and active lifestyle, along with one of ANDREW LESSMAN'S multi-vitaminmineral formulas. For answers to questions about the use of this product, call 800.808.7311.

COMPLETE JOINT EFFORT

1.500 MG GLUCOSAMINE SULFATE

1.200 MG CHONDROITIN SULFATE

ALL-SOLAR MANUFACTURING

60 Perma-Fresh Packets[™] • 240 Easy-to-Swallow Capsules

Andrew Lessman's COMPLETE JOINT EFFORT is a Sodium-Free formula providing the optimum potency and the ideal forms (All Sulfate) of the most important ingredients for the maintenance and repair of healthy joint tissue. This unique formula begins with the research-recommended levels of the two clinically-established natural ingredients for joint health: Glucosamine Sulfate (1,500 mg) and Chondroitin Sulfate (1,200 mg). These two ingredients are not medicines, but the vital structural molecules that are required for our joints to retain their elasticity and healthy structure as we age. Glucosamine is always the first line of joint defense, but unlike ordinary joint products, we refuse to use unproven Glucosamine HCl (Hydrochloride). We only use the form of Glucosamine established in thousands of studies – Glucosamine Sulfate. Also unique is our special form of Sodium-Free Chondroitin Sulfate, which eliminates the Sodium present in other joint products. Our special Calcium Chondroitin Sulfate eliminates the risks of Sodium and instead provides the benefits of 80 mg of essential Calcium. Sadly, typical joint products use inferior sources of both Glucosamine and Chondroitin. Ordinary Glucosamine HCl does not possess the benefits of the research-established Glucosamine Sulfate while common Sodium Chondroitin Sulfate can adversely affect blood pressure and heart health by delivering unwanted Sodium. Glucosamine and Chondroitin are the "bricks and mortar" of our joints, without which our body cannot create, maintain and repair joint tissue. By providing these two essential structural molecules in their optimum Sulfate form and at their Supplement Facts ideal potency, we deliver maximum benefits to joint structure, health and | Serving Size 1 Packet (4 Capsules) function. No other body part endures more daily abuse than our joints and Complete Joint Effort delivers the proper tools to help combat and repair

it unlike any joint product in the world. These statements have not been evaluated by the Food and Drug Administration. This product is not
