**COMPREHENSIVE PROBIOTIC COMPLEX**

# ULTIMATE FRIENDLY FLORA

**25 BILLION CFU**

FIVE BENEFICIAL PROBIOTIC STRAINS

180 Easy-to-Swallow Capsules

**Andrew Lessman's ULTIMATE FRIENDLY FLORA** is a comprehensive blend of five established, beneficial probiotic strains, delivering an exceptional 25 Billion Colony Forming Units (CFU) per capsule. Probiotic means "for life" and probiotic-rich foods have been consumed for thousands of years. However, our diet is no longer rich in microflora with yogurt remaining one of its only sources, which typically contains unwanted calories and sugar and only provides unreliable levels of a single strain of microflora. There are trillions of beneficial microorganisms (microflora) in our body and their healthy balance is essential to the health of our digestive and immune systems. Our *Friendly Flora* is designed to enhance the balance of these microorganisms in our digestive, immune, urinary and genital systems. It is well established that the microflora in our GI (gastrointestinal) tract play a vital role in promoting healthy digestion, including nutrient absorption and regularity. Maintaining a proper balance of our microflora is also essential to healthy immune system function. The delicate balance of microflora is easily upset by stress, poor diet, digestive issues and aging. This fragile balance is further disrupted by medications that affect the digestive system and its pH balance, such as antacids or antibiotics, which can entirely wipe out our microflora. **Ultimate Friendly Flora** provides 25 Billion Colony Forming Units per capsule of five carefully selected varieties of established, beneficial microflora to ensure the essential benefits of these remarkably healthy "friends."
