

SUGGESTED USE Mix one scoop of **SECURE** in 6 to 12 ounces of water, juice or non-fat milk. Use more or less liquid to achieve the desired flavor intensity. You can also make a delicious “smoothie” by adding non-fat yogurt, juice, ice and fresh or frozen fruit. **SECURE** provides a delicious, low fat source of healthy protein, vitamins and minerals that makes the ideal meal, snack or dessert replacement that fits perfectly into any weight-management plan. **SECURE** is not intended to be a primary source of calories, food or meals, but to serve as an occasional meal replacement to achieve one’s weight management goals. This product is most effective as part of a healthy, nutritious diet and active lifestyle, along with one of **ANDREW LESSMAN’S** multi-vitamin-mineral formulas. **For answers to questions about the use of this product, call 800.808.7311.**

This package is sold by weight not by volume. It contains the full weight indicated on the label. Settling of contents can occur during shipment.

SECURE

COMPLETE MEAL REPLACEMENT

with ACETYL L-CARNITINE 250

ONLY 70 CALORIES • LOW FAT • LOW SODIUM

22 VITAMINS AND MINERALS • 200 MG CALCIUM • 7 GRAMS SOY PROTEIN

44.4 oz (2.8 lb) (1.26 kg) • 60 Servings

SECURE COMPLETE MEAL REPLACEMENT with ACETYL L-CARNITINE is a great tasting coffee meal replacement shake that, at **only 70 calories**, is also the world’s lowest calorie. It is also a healthy source of protein, fiber and 22 essential vitamins and minerals, along with the essential fat-metabolizing nutrient Acetyl L-Carnitine (**ALC**). Each delicious and satisfying serving delivers 7 grams of heart and bone healthy non-GMO soy protein. For those counting “carbs”, **SECURE** delivers only 5 grams of carbohydrate with 2 grams of healthy fiber and provides between 50% and 200% of the RDI of 11 essential vitamins, plus 10 vital minerals, including 200 milligrams of Calcium. Soy has long been a staple food in the healthy Asian diet and non-GMO soy protein is the highest quality, complete, non-animal protein available today with a long list of scientific research attesting to its myriad health and weight-loss benefits. **SECURE with ALC** provides high levels of **Acetyl L-Carnitine (ALC)** because of its essential role in fat burning metabolism and energy production. In fact, Carnitine is required for ALL fat metabolism, since without Carnitine, we would not be able to move fat to the site in our cell’s mitochondria where it can be burned. Carnitine’s essential role in all fat burning metabolism is not just critical for weight loss, but also for the optimum functioning of our most energy intensive organs, such as the brain and heart. **SECURE’s** rich flavor and texture also makes it easier to enjoy a reduced caloric intake, while also ensuring an abundant supply of vitamins, minerals, protein, fiber and phytonutrients. **SECURE** is designed to be the best tasting, reduced calorie meal replacement available, providing a highly concentrated source of the vitamins, minerals, fiber and protein you seek without the abundant calories, sugar, carbohydrate or fat you seek to avoid. Nutrient-rich **SECURE with ALC** is designed to be more than the most extraordinary meal replacement on paper, but also the most impressive and delicious in your mouth as well. Controlling our intake of food can be difficult, but **SECURE’s** great taste and caloric composition make it easy and enjoyable to embrace a weight-loss regimen that actually works.
