AHIFLOWER[®] OIL OMEGA-3 WITH GLA

500 mg Plant-Based Omega-3s
Unique Balance of ALA • SDA • GLA

Dietary Supplement | **240** Easy-to-Swallow Capsules

Andrew Lessman's AHIFLOWER[®] OIL OMEGA-3 is a uniquely balanced, plant-based, non-GMO source of essential Omega-3 fatty acids. **Ahiflower** is the world's richest natural source of **SDA** (Stearidonic Acid), a rare Omega-3 fatty acid, which is far more effectively converted to EPA (Eicosapentaenoic Acid) than the ALA (Alpha-Linolenic Acid) present in most plants. The presence of **SDA** further elevates **Ahiflower Oil** above all other terrestrial plant-based oils, including flax, chia, hemp, sacha inchi, perilla and echium oils. Our **Ahiflower Oil** delivers greater Omega-3 bioactivity than all other non-marine, plant-based oils. **Ahiflower Oil** also uniquely provides **GLA** (Gamma-Linolenic Acid), an important precursor for the production of our body's vital prostaglandins, which play a multitude of roles promoting health and wellness. Our **Ahiflower** is also exclusively grown on sustainable farmland in the United Kingdom. In short, our **Ahiflower Oil** provides the most effective profile of Omega-3s from a sustainable, non-marine source without contaminants, stomach upset or fishy aftertaste.

These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
