PROSTATE SUPPORT™

Saw Palmetto Berry Extract
Pumpkin Seed Oil | Lycopene

Dietary Supplement | **360** Easy-to-Swallow Capsules

Andrew Lessman's PROSTATE SUPPORT contains a highly standardized extract of the Saw Palmetto berry. Numerous clinical studies have shown that Saw Palmetto can support the normal function of the prostate and in so doing, promote healthy urinary flow. Saw Palmetto's benefits are most apparent at night when a healthy relationship between the prostate and the bladder can reduce urinary urgency and sleep interruptions. Our Prostate Support provides the research recommended daily level of 320 mg of Saw Palmetto berry extract in a single, easy-to-swallow capsule. Following the science, our highly concentrated extract of the Saw Palmetto berry is standardized to deliver 85-95% total fatty acids. We also include 2,000 mcg of Lycopene, since it is the most important, protective carotenoid in the prostate gland. Research has shown that Lycopene can help protect the prostate from damaging free-radicals and promotes healthy prostate function. We also add Pumpkin Seed to optimize this formula's benefits. Many men in the United States have only recently discovered the fragile nature of their prostate - generally due to sleep interruptions caused by urinary urgency. To assure you the greatest benefits possible, we enhance our **Prostate Support** formula with the unique balance of plant-based Omega-3 fatty acids from Ahiflower® Oil. Our **Prostate Support** formula offers a comprehensive, clinically proven, active ingredient to support the delicate tissues of the prostate gland while also promoting the prostate's healthy relationship with urinary and bladder function. Ahiflower® is a registered trademark of Technology Crops, LLC.
